April 2000

Minor updates to Resume, Schoolwork and Biography pages.

March 2000

Changed layout of Resume.

Updated links and streamlined components for faster page downloads.

Complete overhaul of entire site. All pages modified or updated.

Re-mapped home page from default.htm to index.htm (shortened URL for entry page)

Removed all remaining non-supported Front Page components.

Site is finally FULLY & COMPLETELY FUNCTIONAL!!!

Added links for HackerGuild.com and Hackerdom.net

Updated Resume, Biography, Schoolwork and Links pages to reflect recent job change and updates.

Re-instituted Table of Contents, in the form of a Webmap. Still a little crude, but is ok temporarily.

January 2000

Updated Résumé page with current information.

Removed most Front Page components that were incompatible with this server.

In order to use the fancier Front Page stuff, the website host server must have Front Page Server Extensions installed in the root directory, which Cox@Home does not (yet!).

Removed excess baggage from default home page to help it load faster, at least until I figure out how to include the nicer touches I envisioned on this site.

Deleted Table of Contents page (another one of those blasted deco touches that this server does not seem to support).

Updated School Coursework page to reflect classes completed since last update.

September 1999

Updated Résumé page - new duties added to current job.

Added several links to Favorite Links page.

Updated School Coursework page to reflect classes completed since last update.

Added Past, Present & Future Paper (under personal Writings)

Added Performance Management Initiative Paper (under personal Writings)
